

*Serial Number: 10/074,009*

B<sup>2</sup>  
the location of said plurality of numeric non-volumetric measuring indicia with respect to said syringe barrel.

---

B<sup>3</sup>  
28. (Amended) The syringe of claim 1, wherein said plurality of numeric non-volumetric measuring indicia reflect a linear relationship between said plurality of numeric non-volumetric measuring indicia and a fluid dosage to be dispensed.

29. (Amended) The syringe of claim 1, wherein said plurality of numeric non-volumetric measuring indicia reflect a non-linear relationship between said plurality of numeric non-volumetric measuring indicia and a fluid dosage to be dispensed.

30. (Amended) The syringe of claim 1, wherein said syringe further comprises at least one additional different type of non-volumetric measuring indicia.

31. (Amended) The syringe of claim 30, wherein said at least one additional different type of non-volumetric measuring indicia is selected from the group consisting of numeric indicia, age indicia, height indicia, weight indicia and color indicia.

---

B<sup>4</sup>  
34. (Amended) A kit comprising a syringe comprising a syringe barrel having a plurality of numeric non-volumetric measuring indicia thereon.

---

B<sup>5</sup>  
37. (Amended) The kit of claim 34, wherein said plurality of numeric non-volumetric measuring indicia comprise a plurality of weight indicia.

38. (Amended) The kit of claim 34, wherein said plurality of numeric non-volumetric measuring indicia comprise a plurality of age indicia.

39. (Amended) The kit of claim 34, wherein said plurality of numeric non-

**Serial Number: 10/074,009**

volumetric measuring indicia comprise a plurality of height indicia.

40. (Amended) The kit of claim 34, further comprising a means for adjusting the location of said plurality of numeric non-volumetric measuring indicia with respect to said syringe barrel.

41. (Amended) The kit of claim 34, wherein said plurality of numeric non-volumetric measuring indicia reflect a linear relationship between said plurality of numeric non-volumetric measuring indicia and a fluid dosage to be dispensed.

42. (Amended) The kit of claim 34, wherein said plurality of numeric non-volumetric measuring indicia reflect a non-linear relationship between said plurality of numeric non-volumetric measuring indicia and a fluid dosage to be dispensed.

43. The kit of claim 34, further comprising at least one fluid or medication.

44. (Amended) The kit of claim 34, wherein said kit further comprises at least one additional different type of non-volumetric measuring indicia.

45. (Amended) The kit of claim 44, wherein said at least one additional different type of non-volumetric measuring indicia is selected from the group consisting of numeric indicia, age indicia, height indicia, weight indicia and color indicia.
